About Ananda Developments PLC

Ananda Developments currently has three key areas of endeavour. They include its interest in iCAN, a global leader in medicinal cannabis research and a recognized thought leader in the space; its 15% shareholding in Liberty Herbal Technologies which is the owner of the recently launched hapac[®] technology for the dry vaping of medicinal cannabis; and its 100% ownership of Tiamat Agriculture Limited which is pursuing a licence to grow >0.2% THC cannabis in the UK. Ananda will seek to continue to build its footprint in the nascent cannabis sector in order to participate fully as medicinal, therapeutic and wellness cannabis grow in market acceptance.
